SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier
Trade name/designation:
Elpa (all types)

Other means of identification:
This safety data sheet applies to the following types:
Elpa 30
Elpa 30Si
Elpa 30 L
Elpa 45
Elpa 50
Elpa 50 Si
Elpa 50 Plus
Elpa 50 L.

1.2 Relevant identified uses of the substance or mixture and uses advised against
Use of the substance/mixture:
Paste for electrodes
Industrial uses

1.3 Details of the supplier of the safety data sheet
Manufacturer/Supplier:
Rheinfelden Carbon GmbH & Co KG
Bukheinstr. 2
79618 Rheinfelden
GERMANY
Telephone: +49 7623 93 211
Telefax: +49 7623 93 548
E-mail: msds@rheinfelden-carbon.eu
Website: http://www.rheinfelden-carbon.eu
E-mail (competent person): msds@rheinfelden-carbon.eu

1.4 Emergency phone number
24h: +49 551 19240

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture
Classification according to Regulation (EC) No 1272/2008 [CLP]:

<table>
<thead>
<tr>
<th>Hazard classes and hazard categories</th>
<th>Hazard statements</th>
<th>Classification procedure</th>
</tr>
</thead>
<tbody>
<tr>
<td>Germ cell mutagenicity (Muta. 1B)</td>
<td>H340: May cause genetic defects.</td>
<td>Calculation</td>
</tr>
<tr>
<td>Carcinogenicity (Carc. 1A)</td>
<td>H350: May cause cancer.</td>
<td>Calculation</td>
</tr>
<tr>
<td>Reproductive toxicity (Repr. 1B)</td>
<td>H360FD: May damage fertility. May damage the unborn child.</td>
<td>Calculation</td>
</tr>
</tbody>
</table>

Additional information:
Aquatic toxicity: no classification (Test data).
2.2 Label elements
Labelling according to Regulation (EC) No. 1272/2008 [CLP]

Hazard pictograms:

GHS08 Health hazard

Signal word: Danger

Hazard components for labelling:
Pitch, coal tar, high-temp.; Benzo[def]chrysene

<table>
<thead>
<tr>
<th>Hazard statements for health hazards</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>H340</td>
<td>May cause genetic defects.</td>
</tr>
<tr>
<td>H350</td>
<td>May cause cancer.</td>
</tr>
<tr>
<td>H360FD</td>
<td>May damage fertility. May damage the unborn child.</td>
</tr>
</tbody>
</table>

Supplemental hazard information (EU)
EUH208 Contains Benzo[def]chrysene. May produce an allergic reaction.

Precautionary statements - Prevention
P201 Obtain special instructions before use.
P273 Avoid release to the environment.
P280 Wear protective gloves/protective clothing/eye protection/face protection.
P281 Use personal protective equipment as required.

Precautionary statements - Response
P308+P313 IF exposed or concerned: Get medical advice/attention.

Precautionary statements - Storage
P405 Store locked up.

2.3 Other hazards
Adverse human health effects and symptoms:
If dust is generated: May cause eye irritation. May cause respiratory irritation. The melted product can cause severe burns.

SECTION 3: Composition / information on ingredients

3.2 Mixtures

<table>
<thead>
<tr>
<th>Product identifiers</th>
<th>Substance name</th>
<th>Classification according to Regulation (EC) No 1272/2008 [CLP]</th>
<th>Content</th>
</tr>
</thead>
<tbody>
<tr>
<td>CAS No.: 64743-05-1</td>

SECTION 4: First aid measures

4.1 Description of first aid measures

General information:
In case of accident or unwellness, seek medical advice immediately (show directions for use or safety data sheet if possible). Remove victim out of the danger area. Take off contaminated clothing and wash it before reuse. If unconscious place in recovery position and seek medical advice. Do not leave affected person unattended.

Following inhalation:
Provide fresh air. Get medical advice/attention.

In case of skin contact:
After contact with molten product, cool skin area rapidly with cold water. After contact with skin, wash immediately with plenty of water and soap. In case of skin irritation, consult a physician.

After eye contact:
In case of contact with eyes flush immediately with plenty of flowing water for 10 to 15 minutes holding eyelids apart and consult an ophthalmologist.

After ingestion:
If swallowed, rinse mouth with water (only if the person is conscious). Do NOT induce vomiting. Get immediate medical advice/attention.

Self-protection of the first aider:
No direct artificial respiration to be given by first aider.

4.2 Most important symptoms and effects, both acute and delayed

If dust is generated: May cause eye irritation. May cause respiratory irritation. May cause cancer. May cause genetic defects. May damage fertility. May damage the unborn child.

4.3 Indication of any immediate medical attention and special treatment needed
Treat symptomatically.

SECTION 5: Firefighting measures

5.1 Extinguishing media
Suitable extinguishing media:
water spray jet, alcohol resistant foam, extinguishing powder, carbon dioxide (CO₂)

5.2 Special hazards arising from the substance or mixture
This material is combustible, but will not ignite readily. Burning produces heavy smoke. If dust is generated: Danger of dust explosion.

Hazardous combustion products:
In case of fire may be liberated: Pyrolysis products, toxic; carbon oxides (COx); Nitrogen oxides (NOx); sulphur oxides (SOx)

5.3 Advice for firefighters
Wear a self-contained breathing apparatus and chemical protective clothing.

5.4 Additional information
Move undamaged containers from immediate hazard area if it can be done safely. Use water spray to keep fire-exposed containers cool.
SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures
6.1.1 For non-emergency personnel
Personal precautions:
Provide adequate ventilation. Do not breathe dust. Avoid contact with skin, eyes and clothes.
Protective equipment:
Wear protective gloves/protective clothing/eye protection/face protection. If dust is generated: Use appropriate respiratory protection. Personal protection equipment: see section 8.

6.1.2 For emergency responders
Personal protection equipment:
Personal protection equipment: see section 8

6.2 Environmental precautions
Do not allow to enter into surface water or drains. Do not allow to enter into soil/subsoil.

6.3 Methods and material for containment and cleaning up
For containment:
Take up mechanically, placing in appropriate containers for disposal. Measures to prevent aerosol and dust generation: Wet clean or vacuum up solids.
For cleaning up:
Cleaning agent: Water with tenside additive.

6.4 Reference to other sections
Safe handling: see section 7.
Personal protection equipment: see section 8.
Disposal: see section 13.

6.5 Additional information
Use appropriate container to avoid environmental contamination.

SECTION 7: Handling and storage

7.1 Precautions for safe handling
Protective measures
Advices on safe handling:
Wear personal protection equipment (refer to section 8). Provide adequate ventilation. Avoid dust formation. Do not breathe dust. Avoid contact with eyes and skin. Handle and open container with care. Always close containers tightly after the removal of product.
Fire prevent measures:
If dust is generated: Remove all sources of ignition. Warning! Danger of dust explosion.
Measures to prevent aerosol and dust generation:
Dust should be exhausted directly at the point of origin. Additional measures for respiratory protection: High efficiency particulate air filter (HEPA filter)
Environmental precautions:
Discharge into the environment must be avoided.

Advices on general occupational hygiene
When using do not eat, drink or smoke. Wash hands and face before breaks and after work and take a shower if necessary. Wash contaminated clothing before reuse.

7.2 Conditions for safe storage, including any incompatibilities
Technical measures and storage conditions:
Store dry. Ensure adequate ventilation of the storage area. Keep container tightly closed.
Hints on storage assembly:
Do not store together with: oxidizing agent
7.3 Specific end use(s)
Recommendation:
Paste for electrodes.
Observe technical data sheet.

SECTION 8: Exposure controls / Personal protection

8.1 Control parameters

8.1.1 Occupational exposure limit values

<table>
<thead>

<td>PNEC sediment, freshwater</td>
</tr>
</tbody>
</table>

8.2 Exposure controls

8.2.1 Appropriate engineering controls
Technical measures and the application of suitable work processes have priority over personal protection equipment. Measures to prevent aerosol and dust generation: Provide adequate ventilation as well as local exhaust at critical locations.
Elpa (all types)

8.2.2 Personal protection equipment

Eye/face protection:
Recommendation: Eye glasses with side protection (DIN EN 166).

Skin protection:
Tested protective gloves must be worn (DIN EN 374).
Suitable material: NBR (Nitrile rubber), IIR (Butyl rubber)
Thickness of the glove material: ≥ 0,5 mm
Breakthrough time (maximum wearing time): ≥ 480 min
The quality of the protective gloves resistant to chemicals must be chosen as a function of the specific working place concentration and quantity of hazardous substances. For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves. Check leak tightness/impermeability prior to use. In the case of wanting to use the gloves again, clean them before taking off and air them well. Breakthrough times and swelling properties of the material must be taken into consideration.

Respiratory protection:
If workplace limits are exceeded, a respiratory protection approved for this particular job must be worn. Combination filtering device (EN 14387), Filter type A2/P3. Observe the wear time limits as specified by the manufacturer.

Other protection measures:
Wear suitable protective clothing (EN 340). In case of thermal hazard use heat-resistant synthetic fiber. Wash all protective clothing after use.

8.2.3 Environmental exposure controls
Discharge into the environment must be avoided. See section 6.2

8.3 Additional information
No data available.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Physical state: solid
Odour: like Mineral oil

Colour: dark grey

9.2 Other information
No data available.

SECTION 10: Stability and reactivity

10.1 Reactivity
This material is combustible, but will not ignite readily.

10.2 Chemical stability
The product is stable under storage at normal ambient temperatures.

10.3 Possibility of hazardous reactions
No hazardous reaction when handled and stored according to provisions. The product in the delivered form is not dust explosion capable; the enrichment of fine dust however leads to the danger of dust explosion.

10.4 Conditions to avoid
If dust is generated: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

10.5 Incompatible materials
oxidizing agent.

10.6 Hazardous decomposition products
In case of fire may be liberated: Pyrolysis products, toxic; carbon oxides (COx); Nitrogen oxides (NOx); sulphur oxides (SOx)

Further information
Burning produces heavy smoke.

SECTION 11: Toxicological information

11.1 Information on toxicological effects

Acute oral toxicity:
Based on available data, the classification criteria are not met.

Acute dermal toxicity:
Based on available data, the classification criteria are not met.

Acute inhalation toxicity:
Based on available data, the classification criteria are not met.

Skin corrosion/irritation:
Based on available data, the classification criteria are not met.

Eye damage/irritation:
Based on available data, the classification criteria are not met. If dust is generated: May cause eye irritation.

Respiratory or skin sensitisation:
Based on available data, the classification criteria are not met. Contains Benzo[def]chrysene. May produce an allergic reaction.

Germ cell mutagenicity:
May cause genetic defects.

Carcinogenicity:
May cause cancer.

Reproductive toxicity:
May damage fertility. May damage the unborn child.

STOT-single exposure:
Based on available data, the classification criteria are not met. If dust is generated: May cause respiratory irritation.
STOT-repeated exposure:
Based on available data, the classification criteria are not met.

Aspiration hazard:
Based on available data, the classification criteria are not met.

Additional information:
No data available.

SECTION 12: Ecological information

12.1 Toxicity
Aquatic toxicity:
Based on available data, the classification criteria are not met.

12.2 Persistence and degradability

<table>
<thead>
<tr>

</tbody>
</table>

12.6 Other adverse effects
No data available.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

13.1.1 Product/Packaging disposal
Waste codes/waste designations according to EWC

Waste code product:

| 05 06 03 * | Other tars |

*: Evidence for disposal must be provided.

Remark:
The allocation of waste code numbers / waste names must be carried out in accordance with the European Waste Catalogue (EWC).

Waste treatment options

Appropriate disposal / Product:
Send to a hazardous waste incinerator facility under observation of official regulations. Consult the appropriate local waste disposal expert about waste disposal. For recycling, contact manufacturer.
Elpa (all types)

Appropriate disposal / Package:  
Completely emptied packages can be recycled.

13.2 Additional information  
Collect in closed and suitable containers for disposal. Waste for disposal is to be classified and labelled.

SECTION 14: Transport information

No dangerous good in sense of these transport regulations.

14.1 UN-No.  
not relevant

14.2 UN proper shipping name  
not relevant

14.3 Transport hazard class(es)  
not relevant

14.4 Packing group  
not relevant

14.5 Environmental hazards  
not relevant

14.6 Special precautions for user  
not relevant

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code  
Not relevant.

Additional information:  
No data available.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

15.1.1 EU legislation

Authorisations:  
No data available.

Restrictions on use:  
No data available.

Other EU regulations:

Directive 98/24/EC of 7 April 1998 on the protection of the health and safety of workers from the risks related to chemical agents at work Observe restrictions to employment for juvenis according to the 'juvenile work protection guideline' (94/33/EC). Observe employment restrictions under the Maternity Protection Directive (92/85/EEC) for expectant or nursing mothers.

15.1.2 National regulations  
No data available.

15.2 Chemical Safety Assessment  
No data available.

15.3 Additional information  
No data available.
SECTION 16: Other information

16.1 Indication of changes
Changes executed in version 2.0:
Section 2: classification/Label elements
Section 3: classification, hazardous ingredients
Section 12: Aquatic toxicity
Section 14: Transport information
Section 15: Storage class
General revision

16.2 Abbreviations and acronyms

16.6 Training advice
No data available.

16.7 Additional information
The information in this data sheet has been established to our best knowledge and was up-to-date at time of revision. It does not represent a guarantee for the properties of the product described in terms of the legal warranty regulations. The information is intended to give you advice about the safe handling of the product named in this safety data sheet, for storage, processing, transport and disposal. The information cannot be transferred to other products. In the case of mixing the product with other products or in the case of processing, the information on this safety data sheet is not necessarily valid for the new made-up material.
